

## Marco Polo Hotels launches new website

One of the by-products of the Asian boom has been the burgeoning tourism sector, which has pushed for better quality hotels to cater to the discerning traveller.

Hence, the very aim behind the establishment of Marco Polo Hotels has been to provide travellers from every corner of the world, a stay with all the Western comforts topped with the famed Asian hospitality – an experience truly unforgettable!

This vision has led to the establishment of fourteen properties with many more on the way and their perseverance through the last twenty eight years has resulted in Marco Polo Hotels being counted as one of the leading hospitality brands in the Asia-Pacific region.

Take a look at the Marco Polo Hotels new website launched this November
